## Bio

LA- based singer/songwriter/frontwoman VK Lynne brings her plethora of eclectic musical experiences together on her new full-length effort, The Spider Queen.

In 2023, she toured North America and Eastern Europe with her project, The Spider Accomplice, supporting symphonic metal act Visions of Atlantis and rock/glam metal duo Hoekstra Gibbs, respectively.

Now, she is returning to the solo work that yielded 3 full-length blues rock records in the 2000's: The Key of V, Black Halo, and Whiskey or Water.

After the release of the latter, Lynne spent from 2010-2023 developing, writing, and singing with symphonic metal project Vita Nova, writing and singing for prog metal juggernaut stOrk, and finally, forming, writing, and performing with symphonic rock duo The Spider Accomplice.

The diverse genres of these endeavors come together on The Spider Queen to create a sound that she has dubbed 'blues metal.'
