PSST! DO YOU WANT TO **rock more. suck less.** ?

HEY! I'M ELLEN.

Making music is a joy, so my first job is not to mess that up!

My approach is flexible and collaborative, putting the focus on what each individual student is interested in learning, and my goal is to work as hard as possible while having as much fun as possible :)

Many of my students are songwriters, so we work on playing their original songs as well as possible, plus expanding vocabulary on the guitar as a tool for both writing and performing.

Other priorities include the Nashville Number System (if you're not already a fan, I'll show you why it's the coolest thing ever!), fingering shortcuts, picking, grooves, making the most of the capo, + learning how to figure out the chords to your song.

> My guitar lesson with Ellen is my favorite hour of the week!

STAR STUDENT TIM NICHOLS
GRAMMY-WINNING HIT SONGWRITER

"LIVE LIKE YOU WERE DYING" (TIM MCGRAW)
