Band With My Sisters

My sisters and I created a band named "Smooch" about 8 years ago. We perform at church, community events, graduation parties, birthday parties and various other settings. We love making music videos, harmonizing and creating with each other. It is my favorite pass time to make music with them. @smoochband- instagram @themuccinisisters- YouTube

Track and Cross Country

Earned a track and field scholarship to Clemson University. Competed in cross-country and track and field at an elite level for most of my life, consistently ranking among the top athletes nationally and statewide throughout middle and high school. Maintained a rigorous daily training schedule, which cultivated discipline, resilience, and a strong work ethic.

Christian Youth Group 2008-2020:

Active member of a Christian youth group, contributing to various fundraising initiatives to support meaningful causes. These experiences strengthened my leadership, teamwork, and commitment to making a positive impact in the community.

Acapella Group (During Clemson)

During my time at Clemson University, I was a member of Clemson TakeNote, an all-female auditioned a cappella ensemble (@ClemsonTakeNote on Instagram). This experience allowed me to grow both personally and artistically, as I embraced the beauty of singing in a collaborative group setting. I performed solos and participated in events ranging from sold-out campus shows and football games to presidential engagements and more. This opportunity profoundly enriched my passion for music, singing, and live performance.

Clemson University Singers

I was also involved in the Clemson University official choir group for 3 years. We had various shows throughout the semesters. I became familiar with sheet music and sight reading and all technicalities of music in a choir scene.
