JULIE MRIOUAH

VIDEO DIRECTOR

PROFESSIONAL PROFILE

As a passionnate video director, i rise to the challenge of bringing a creative and aesthetic vision to the projects that i am involved with.
My cinema education and my professionnal background as a versatile video technician and operator pushed me to think directing as a part of a set that magnify the artist as well as the whole design of the show. I see camera shots, but i also see graphics, colors, shapes, flow and synchronisation.
